

HENLEY™ Seating

Henley High-Back

If you're looking for a value line of task seating you can be comfortable with, look no further than Henley. The Henley chairs are designed to meet the comfort and durability standards of our other seating lines, but also fit into the constraints of tight budgets and extremely short lead times.

Henley seating offers the user a soft, molded foam seat

and back with built-in lumbar support on a sturdy nylon base. Henley seating comes with black polypropylene seat and back shrouds. Chairs may be ordered with no arms, fixed arms or height adjustable t-arms. Adjustable arms and fixed arms are interchangeable. Henley chairs are only available with black trim.

The high-back tension knob allows for smooth back articulation.

Back height is easily adjusted from a standing or seated position, offering 3" of adjustment.

Henley's fixed arm gives a contemporary feel to this task chair.

Henley's seat and back pads are ergonomically contoured for added comfort. The durable seat and back shrouds add to the longevity of the chair.

HENLEY™ Seating

Henley Mid-Back

The Henley line delivers unmatched versatility in the budget seating arena.

Beyond the standard configuration with back height adjustment, Henley offers a high-back model with a smooth-ride tilt mechanism, as well as a mid-back configuration

with back-depth adjustment to fit the user. These mechanisms are not interchangeable.

For a quality task seating that can meet budget as easily as it meets tight lead times, call your sales representative today and ask about the many applications of Henley seating.

Seat height adjustment is standard on both the mid-back and high-back models.

Henley's height adjustable t-arms offer 2.75" of adjustment for the individual user.

Back depth adjustment on the midback chair offers 1.5" of adjustment.

The durable, nylon reinforced five-star base adds quality to this budget seating line.
